

REMARKS

Favorable consideration of this application, as presently amended, is respectfully requested.

The present new application is a divisional application based on co-pending parent U.S. application serial number 10/175,177. In that parent application Claims 37-41 were withdrawn and cancelled as directed to a non-elected species. The present new divisional application is submitted to further prosecute those withdrawn and cancelled Claims 37-41. Thus, by the present preliminary amendment Claims 1-36 are cancelled so Claims 37-41 are pending. Further, by the present preliminary amendment new Claims 42-46 are submitted for examination, which are similar to respective Claims 37-41 but which do not recite "means-plus-function" terminology.

The present preliminary amendment also amends the specification to clarify its status as a divisional application.

The present application is believed to be in condition for a full and thorough examination on the merits. An early and favorable consideration of the present application is hereby respectfully requested.

Respectfully Submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER, & NEUSTADT, P.C.
